

ANNOUNCEMENT

Pittsburgh Geological Society Spring 2012 Student Field Workshop

Saturday April 14, 2012

California University of Pennsylvania

Time: 9 AM to Late Afternoon

**The Pittsburgh Geological Society once again invites students of geology & engineering geology to attend the 8th installment of the
“Student Field Workshop.”**

Have you wondered what you might be doing on that first job?

Chances are, at some point, you’ll be involved with drilling operations of some sort. This is your chance to learn about this process. You will have the opportunity to work along side an experienced drilling contractor and field-wise professionals.

The Workshop will be supervised by professionals in the industry, so not only is this an excellent learning opportunity, it is your chance to ask all those questions regarding life after college. Brush up on those networking skills and get your questions ready!

What will you learn?

- Soil sampling using a drill rig
- Soil & Rock descriptions
- Basic sampling techniques
- Well installation basics
- Basic monitoring equipment
- Designing a drilling program

The cost to you? Due to rising fuel costs we need to charge a nominal fee:

- PGS Student Members: \$ 15.00
- Non-PGS Members: \$20.00

As always, we will throw in lunch.

Payment instructions will be provided upon registration.

PLEASE CONTACT US TO SAVE YOUR PLACE!!!

As all field work, this will be a RAIN or SHINE event. So watch the weather forecast carefully and prepare yourself. The drilling process can be dusty, wet, and muddy -- so leave the designer jeans behind.

**We do ask that you be an active student – please no corporate trainees.
Registration is limited – so sign up ASAP.**

To Register - Contact: Frank Benacquista, PG at: fbenacquista@kuresources.com

SAI FARM MASTER PLAN
