

Manager, Drilling Engineering – PITTSBURGH, PA

Seneca Resources Corporation, the oil & gas exploration and production subsidiary of National Fuel Gas Company (NYSE: NFG), is currently seeking a Manager, Drilling Engineering at its East division office in Pittsburgh, PA.

The Manager, Drilling Engineering will serve as an integral member of the team with responsibilities including, but not limited to, the following:

- Supervising and coordinating drilling engineering activities including well planning, execution and reporting
- Working alongside drilling superintendents to coordinate daily rig activities
- Assuring best in class compliance with company HSE objectives and government regulations
- Coordinating in a team environment with other company employees and departments who are providing technical assistance for the Marcellus project
- Supervising capital budget for drilling projects including control of capital spending and variance justification
- Keeping abreast of new technological developments and incorporating evolving strategies into the optimization of the drilling program
- Coordinating with Procurement to secure major services and ensuring that purchasing policies are followed and maximum economic value is obtained

This position requires 10 years experience including extensive broad based worldwide/countrywide downhole experience in drilling operations. The successful candidate must have exposure to pad based, multi-well, multi-rig, and horizontal shale development campaigns. Experience is also required in the following areas: multi-discipline project coordination/management/execution, remote locations, drilling engineering, and database style reporting. Successful candidate must have a high sense of integrity and intellectual honesty as well as an ability to work well under pressure, meet deadlines, and deliver positive results.

Candidates responding to this posting must refer to the job title, Manager, Drilling Engineering, or Requisition ID, #11-62PA, in their correspondence. For confidential consideration, please send your resume, cover letter and employment references by October 21, 2011 to jobs@srcx.com:
